

COMPACT M 12

TWO-WAY PROFESSIONAL SPEAKER

Description

COMPACT M 12 is a multipurpose two-way full-range speaker system, suitable for a wide range of applications. Its balanced sound is a big asset in near-field applications for the best intelligibility. The M 12 features high sensitivity, typical of professional audio cabinets thanks to the use of oversized magnets and a HI-FI sound quality, with smooth and wide frequency response, thanks to the wave-guided compression driver. The SPL level of low-distortion audio the M 12 can provide goes far beyond expectations of such a compact solution. The elegant and compact design with accurate finishing makes M 12 suitable for almost any environment, even with architectural constraints. Optional mounting accessories allow using M 12 on wall or ceiling installations.

Features

- › 300 W RMS power handling
- › 129 dB max SPL
- › 55 ÷ 20000 Hz frequency range
- › 90° x 70° constant directivity coverage angle, rotatable horn
