

VSA SMART RC

SMARTPHONE REMOTE CONTROL FOR VSA COLUMN

SPEAKERS

Description

VSA SMART RC is a remote control for VSA column speakers that works in conjunction with a dedicated application for smartphones running on iOS and Android OS. The remote control works via infrared communication, so it is necessary to point it properly to the speaker to be adjusted. Functions management is performed by the application. The kit includes the USB / RS485 adapter with RJ45 connection cable to setup the speaker through PC software.
